

KEY FACTS ABOUT HEIFER INTERNATIONAL

Year Established:	1944	
Number of Households Assisted Since Inception:	42.9 Million	
Active Number of Households in programs 2022:	895,015	
Mission:	<p>To End Hunger and Poverty While Caring for the Earth</p> <p><i>Ending Hunger and Creating Sustainable Value Chains</i> It begins with a seed investment of livestock or agriculture, followed by mentorship to help project participants the means to feed their families, build a business, and ultimately to gain access to supply chains and markets.</p> <p><i>Caring for the Earth</i> Heifer teaches farming practices that protect the environment while increasing crop production and resilience. This leads to reforestation, improved water cycles and carbon drawdown. We promote agroecology and work with farmers to protect local ecosystems and biodiversity.</p> <p><i>Empowering Women</i> We design all projects with women in mind. Changing cultural beliefs through gender equity training and giving women direct access to training, resources, markets and credit are fundamental to program success. We elevate women into leadership positions.</p> <p><i>Passing on the Gift®</i> When farmers receive livestock from Heifer, they agree to pass the first female offspring to another family, along with training in its care. This creates an exponential cycle of change, multiplying your investment.</p>	
Where We Work (Active 2022):	<p>AFRICA Ethiopia Kenya Malawi Nigeria Rwanda Senegal Tanzania Uganda Zambia Zimbabwe</p>	<p>ASIA Bangladesh Cambodia India Nepal</p> <p>AMERICAS Ecuador Guatemala Haiti Honduras Mexico Nicaragua United states</p>
Annual Revenue 2022:	\$159,259,239	
Number of Employees:	911	
President & CEO	Surita Sandosham	
EIN Number:	35-1019477
